

Biscayne National Park - Florida

A Watery Wonderland

Within sight of downtown Miami, yet worlds away, Biscayne protects a rare combination of aquamarine waters, emerald islands, and fish-bejeweled coral reefs. Here too is evidence of 10,000 years of human history, from pirates and shipwrecks to pineapple farmers and presidents. Outdoors enthusiasts can boat, snorkel, camp, watch wildlife...or simply relax in a rocking chair gazing out over the bay.

Did You Know?

When exploring Biscayne National Park's coral reefs, don't forget to slow down and take note of some of the small wonders. Turtles, sharks and shipwrecks are great, but don't miss flamingo tongue snails, Christmas tree worms and mermaid's wineglasses.
